

PETERSON
MACHINE & SUPPLY INC.

PETERSONMACHINE.CA

QUALITY. EXPERIENCE. INNOVATION.

Founded in 1981 Peterson Machine & Supply Inc. has grown to become an innovative industry leader across North America. We pride ourselves on being the best at what we do. That means providing **reliable and high-quality machining, manufacturing, and rebuild services** for our clients with the highest standards and tightest tolerances so that you get unmatched service. Every time. Guaranteed.

OUR CLIENTS AGREE

“As a maintenance superintendent for a large kraft pulp facility I depended on Peterson Machine and Supply as an extension to my maintenance team. Peterson’s team provided consistent, quality service. Their solutions were a practiced blend of best practices and innovation. Peterson’s delivered on their promises every time and never took advantage of dire circumstances. Their business practices were professional and competitive; a partner integral to our success.”

Eric Schraml, P.Eng.

REBUILDS

We believe that, when done properly, rebuilds are not a quick fix repair. Instead, we produce close tolerance parts using high-grade materials in our well-equipped facility to guarantee a quality rebuilt product that meets or exceeds OEM standards. It's the experience and skilled personnel dedicated to an exceptional outcome that assures you will have a long-lasting repair in a timeline that meets your schedule. Further to that, all of the work is completed in our centrally located facility in Thunder Bay, which means the fastest turnaround time possible.

PETERSON MACHINE & SUPPLY INC.

TYPES OF REBUILDS

- Pulp and paper process equipment/
mining/municipal
- Industrial process equipment
- Pumps
- Gearboxes
- Process screening and casings
(including new screens)

MACHINING

Our specialty is tight tolerance machine work, which includes the supply of high-quality lower cost parts that meet or exceed original equipment standards. With Peterson's many years of industry experience behind every job we do, you can rest assured that the work will be done on time and correctly the first time.

It's all in the details—from achieving accurate dimensions and a superior surface finish to creating quality finished products that won't let you down when you need them the most.

PETERSON PROVIDES:

- Close tolerance machining for all industrial applications
- Custom parts and equipment built to your exact requirements
- Upgrades and customizations to existing equipment
- Guaranteed workmanship
- Outstanding service, from our sales staff to our people on the floor

FABRICATION/ MANUFACTURING

We have an experienced and certified fabrication team who can create one-of-a-kind custom fabrication in a variety of metals and specialty wear materials such as mild steel, aluminum, stainless steel, titanium, and duplex steels. Our team handles everything from light structural steel (handrails and platforms) to heavy steel fabrication.

Peterson's custom fabrication shop is a fully certified CWB and TSSA facility with the ability to repair all types of pressure vessels and fabricate piping as required. Whether you are looking for us to build from your drawings or conceptualize a design, we can work with your team to create the perfect final product.

PETERSON MACHINE & SUPPLY INC.

SOME EXAMPLES OF WHAT WE PROVIDE:

Pulp and paper industry agitators, mixers, refiners, screening equipment and biomass fuel equipment

Mining industry screens, grizzlies, pan feeders, rock breakers and scalpers

Industrial-grade conveyors

Any type of industrial fabrication to your specifications

CONVEYORS

Transporting product in an effective and timely manner requires a dependable system. At Peterson we provide custom and turnkey design/build conveyor systems that are of the highest quality and our exceptional design team is behind every installation and repair. Our specialty is in belt, chain, screw, and bucket elevating conveyors.

PETERSON PROVIDES:

- High-quality parts and dependable systems
- Materials that meet or exceed grade requirements
- Rugged design and construction for long-lasting reliability
- On-site installation, maintenance, and repair

ENVIRONMENT

Peterson Machine and Supply Inc. is committed to ensuring that all measures are taken to protect the environment and all natural resources related to any and all of our operations.

We constantly work together with our employees, partners, customers, and vendors to find the most innovative, sustainable solutions for our operation while protecting the resources that we all enjoy.

Our goal is to meet or exceed the all the environmental laws, rules and regulations, and exceed the current industry standards.

SAFETY

Peterson Machine and Supply is committed to the health and safety of all its employees and is committed to fulfilling this policy.

It is our responsibility to ensure compliance with all applicable Health and Safety legislation and provide resources necessary for operation of a healthy and safe workplace.

Peterson Machine and Supply endorses joint health and safety and believes every employee has the right to participate in the responsibility to contribute to health and safety in the workplace.

Peterson Machine and Supply and its employees strive towards maintaining a healthy and safe incident free workplace.
